“My exams” is an overview of your active exams in Digital Exam. When the deadline for submission hasn’t yet passed, the dates are stated in the list. When the hand-in deadline has passed, and assessment of your paper can proceed, the dates are no longer visible. In “My exams” you can choose to see archived exams, as well as see the status for each exam. On the next page we explain the different statuses for the three exams seen above.

Introduction to Organizational Theory

The hand-in deadline has been met and the start and end dates are no longer visible. Under status you can see that the assessment is in progress. If you click on the exam, you will be able to see the exam information and download the exam assignment and your hand-in. The page is identical to the confirmation you receive when submitting your hand-in. The confirmation is also automatically sent to your CBS e-mail, but you have the option to print it.

IT Project Management

The exam is active and you can therefore click on it and start the process of submitting your hand-in. Information regarding individual and group hand-ins can be found in their specific guides.

Programming and Development of Smaller Systems and Databases

It is not possible to access the exam as the start date has not been met yet. You will be able to access the exam on October 7 12.00. The hand-in deadline is October 9, at 12.00 pm.
